Edmonton, Alberta

This book is dedicated to the advancement of technology.

# Message

from

**R.H. McKINNON**  
*Minister of Education*

It is always a pleasure to be asked to contribute a message for a yearbook. It must contain the usual wishes for success and the hope that the year spent at the institution has been a happy and rewarding one. I certainly agree with these expressions and sentiments and I do hope they hold true for all of you.

I would like to remind you again that with you rests the reputation of N.A.I.T. It is building up an excellent record. This can only happen when staff and students accept the challenge to do the best job possible.

At the half-way point in the "sixties" we might predict that these will be referred to as the "soaring sixties." Populations are soaring; student enrolments at Universities are soaring; student enrolment at the Institutes are soaring; school populations are soaring; expenditures are soaring to keep up with the necessary facilities. One could go on with actual height of buildings soaring in Edmonton, prices, and maybe even opportunities. Then, too, we have men soaring into space covering unprecedented distances. I trust we may all do our part to meet the challenge of the "soaring sixties."

Best wishes for many successful years ahead.

A handwritten signature in cursive script that reads "R.H. McKinnon".

R.H. McKinnon

# Principal's Message

W.A.B. SAUNDERS  
*Principal*

## YOUR PLACE IN INDUSTRY

The Canadian public is at last awakening to the realization that the Technician has established himself as an entity and as a significant contributor to our way of life. This place of acceptance and respect has not been gained without difficulty. Through the years it has taken a great deal of time and effort by Technicians to prove to an unimpressed, if not doubting, public the capabilities of the Technician.

It is important that you preserve this image. Remember you are a Technician, you are different, your training is different. You are not an inferior grade of engineer or scientist, you are a first grade Technician. In many cases the things you do cannot be duplicated by anyone unless they have had your training.

Finally, please remember you cannot rely on a reputation gained by others to hold a place for you in industry. You must prove yourself each day, and each day you must learn something new. The day you stop learning is the day you start to become obsolete.

We expect a lot of you, so does industry. Please try to live up to our expectations, you can if you want to.

A handwritten signature in black ink, appearing to read "W.A.B. Saunders". The signature is fluid and cursive, with "W.A.B." on the left and "Saunders" on the right, connected by a single, sweeping line.

W.A.B. SAUNDERS  
Principal

# Message

from

**J.P. MITCHELL**  
*Director of Vocational Education*

"The society which scorns excellence in plumbing because plumbing is a humble activity and tolerates shoddiness in philosophy because it is an exalted activity will have neither good plumbing nor good philosophy. Neither its pipes nor its theories will hold water." This was written by the present head of the United States Department of Health, Education and Welfare, John W. Gardner, and appears in his book, "Excellence: Can We Be Equal And Excellent Too?" It describes our educational aspirations in Alberta, in that we strive for equality and excellence in our liberal education, technical education and vocational training. We believe that our "pipes and our theories hold water".

In technical education and vocational training, we have provided programs of study at varying levels and for differing periods of time. However, all programs are designed with the following two major intentions: the first is to enable you as a student to prepare yourself to lead a happier and more useful life than would otherwise be possible; the second is to provide industry and business with an adequate supply of well trained manpower. It is our hope that as a student you find yourself in a program which is interesting, demanding and challenging in all respects, and which will prepare you to make a valuable and needed contribution to the economy and society of our nation.

Your program warrants your best efforts, so that you might reap the greatest reward from the splendid opportunities being provided. It is a great pleasure to wish you every success in your future career.

Sincerely,

A handwritten signature in black ink, appearing to read "J.P. Mitchell".

J.P. Mitchell

# Editorial

DAVID ROTH  
*Editor*

The yearbook staff sincerely hope that you will enjoy this, the 1966 Edition of THE NORTHERN TORCH.

This year we have chosen space travel as a theme, using pictures of various aspects of space such as rockets, satellites, and artists conceptions of space travel. The past year has seen several achievements in space which are a direct result of the combined work and research of thousands of people. A great number of these people are technicians like you and I. They contribute individually and in groups to the development and assembly of parts of the entire project. They all have one thing in common though, and that is that they are working to the completion of the job.

When we enter industry then we must remember that no matter how trivial our job may seem at the time we must work at it diligently and efficiently so that the job will be finished as scheduled.

I would like to take this opportunity to extend my wishes to you all for every success in your future endeavors.

DAVID ROTH  
Editor

# Students' Association

JACK McCUTCHEON  
*President N.A.I.T.S.A.*

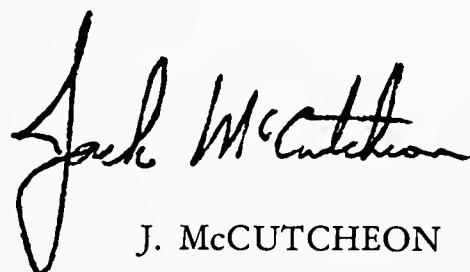

When many of you read this message, it will be from the security of a newly found job - a job that required the training and successful graduation from your own particular technical field at N.A.I.T. To those of you who find yourself in the above mentioned position, I should like to extend a few words of advice; not the usual phrases concerning your duty to your employer, Mother, friends and Tax Department but your duty to yourself. While it is essential that you continue to acquire knowledge and skill within your chosen technology, be aware that this is a truly fantastic world in which we live. Two small words in the previous sentence namely "be aware," have a great deal of meaning for many of us. I say many of us because there are some of us who will attach ourselves to our jobs, sink beneath the pile of mass-produced material that is being pumped out at a prodigious rate and never be heard of again except for a slight resettling of the pile when pension time comes along. For the remainder of us, we have a duty to ourselves to diversify and widen our scope of knowledge and enjoyment of life. So above all else, be aware, and with the advanced methods of communication and thought in this rapidly changing civilization, the opportunities for learning have never been greater for people with a functioning mind.

While I have directed the above few words primarily towards the graduating student, it is only because they will be out in the wide, wide world when they read this. To those of you who are a year or two away from the Big Step, the advice also holds true for it's never too early to be aware of what is happening around you and why.

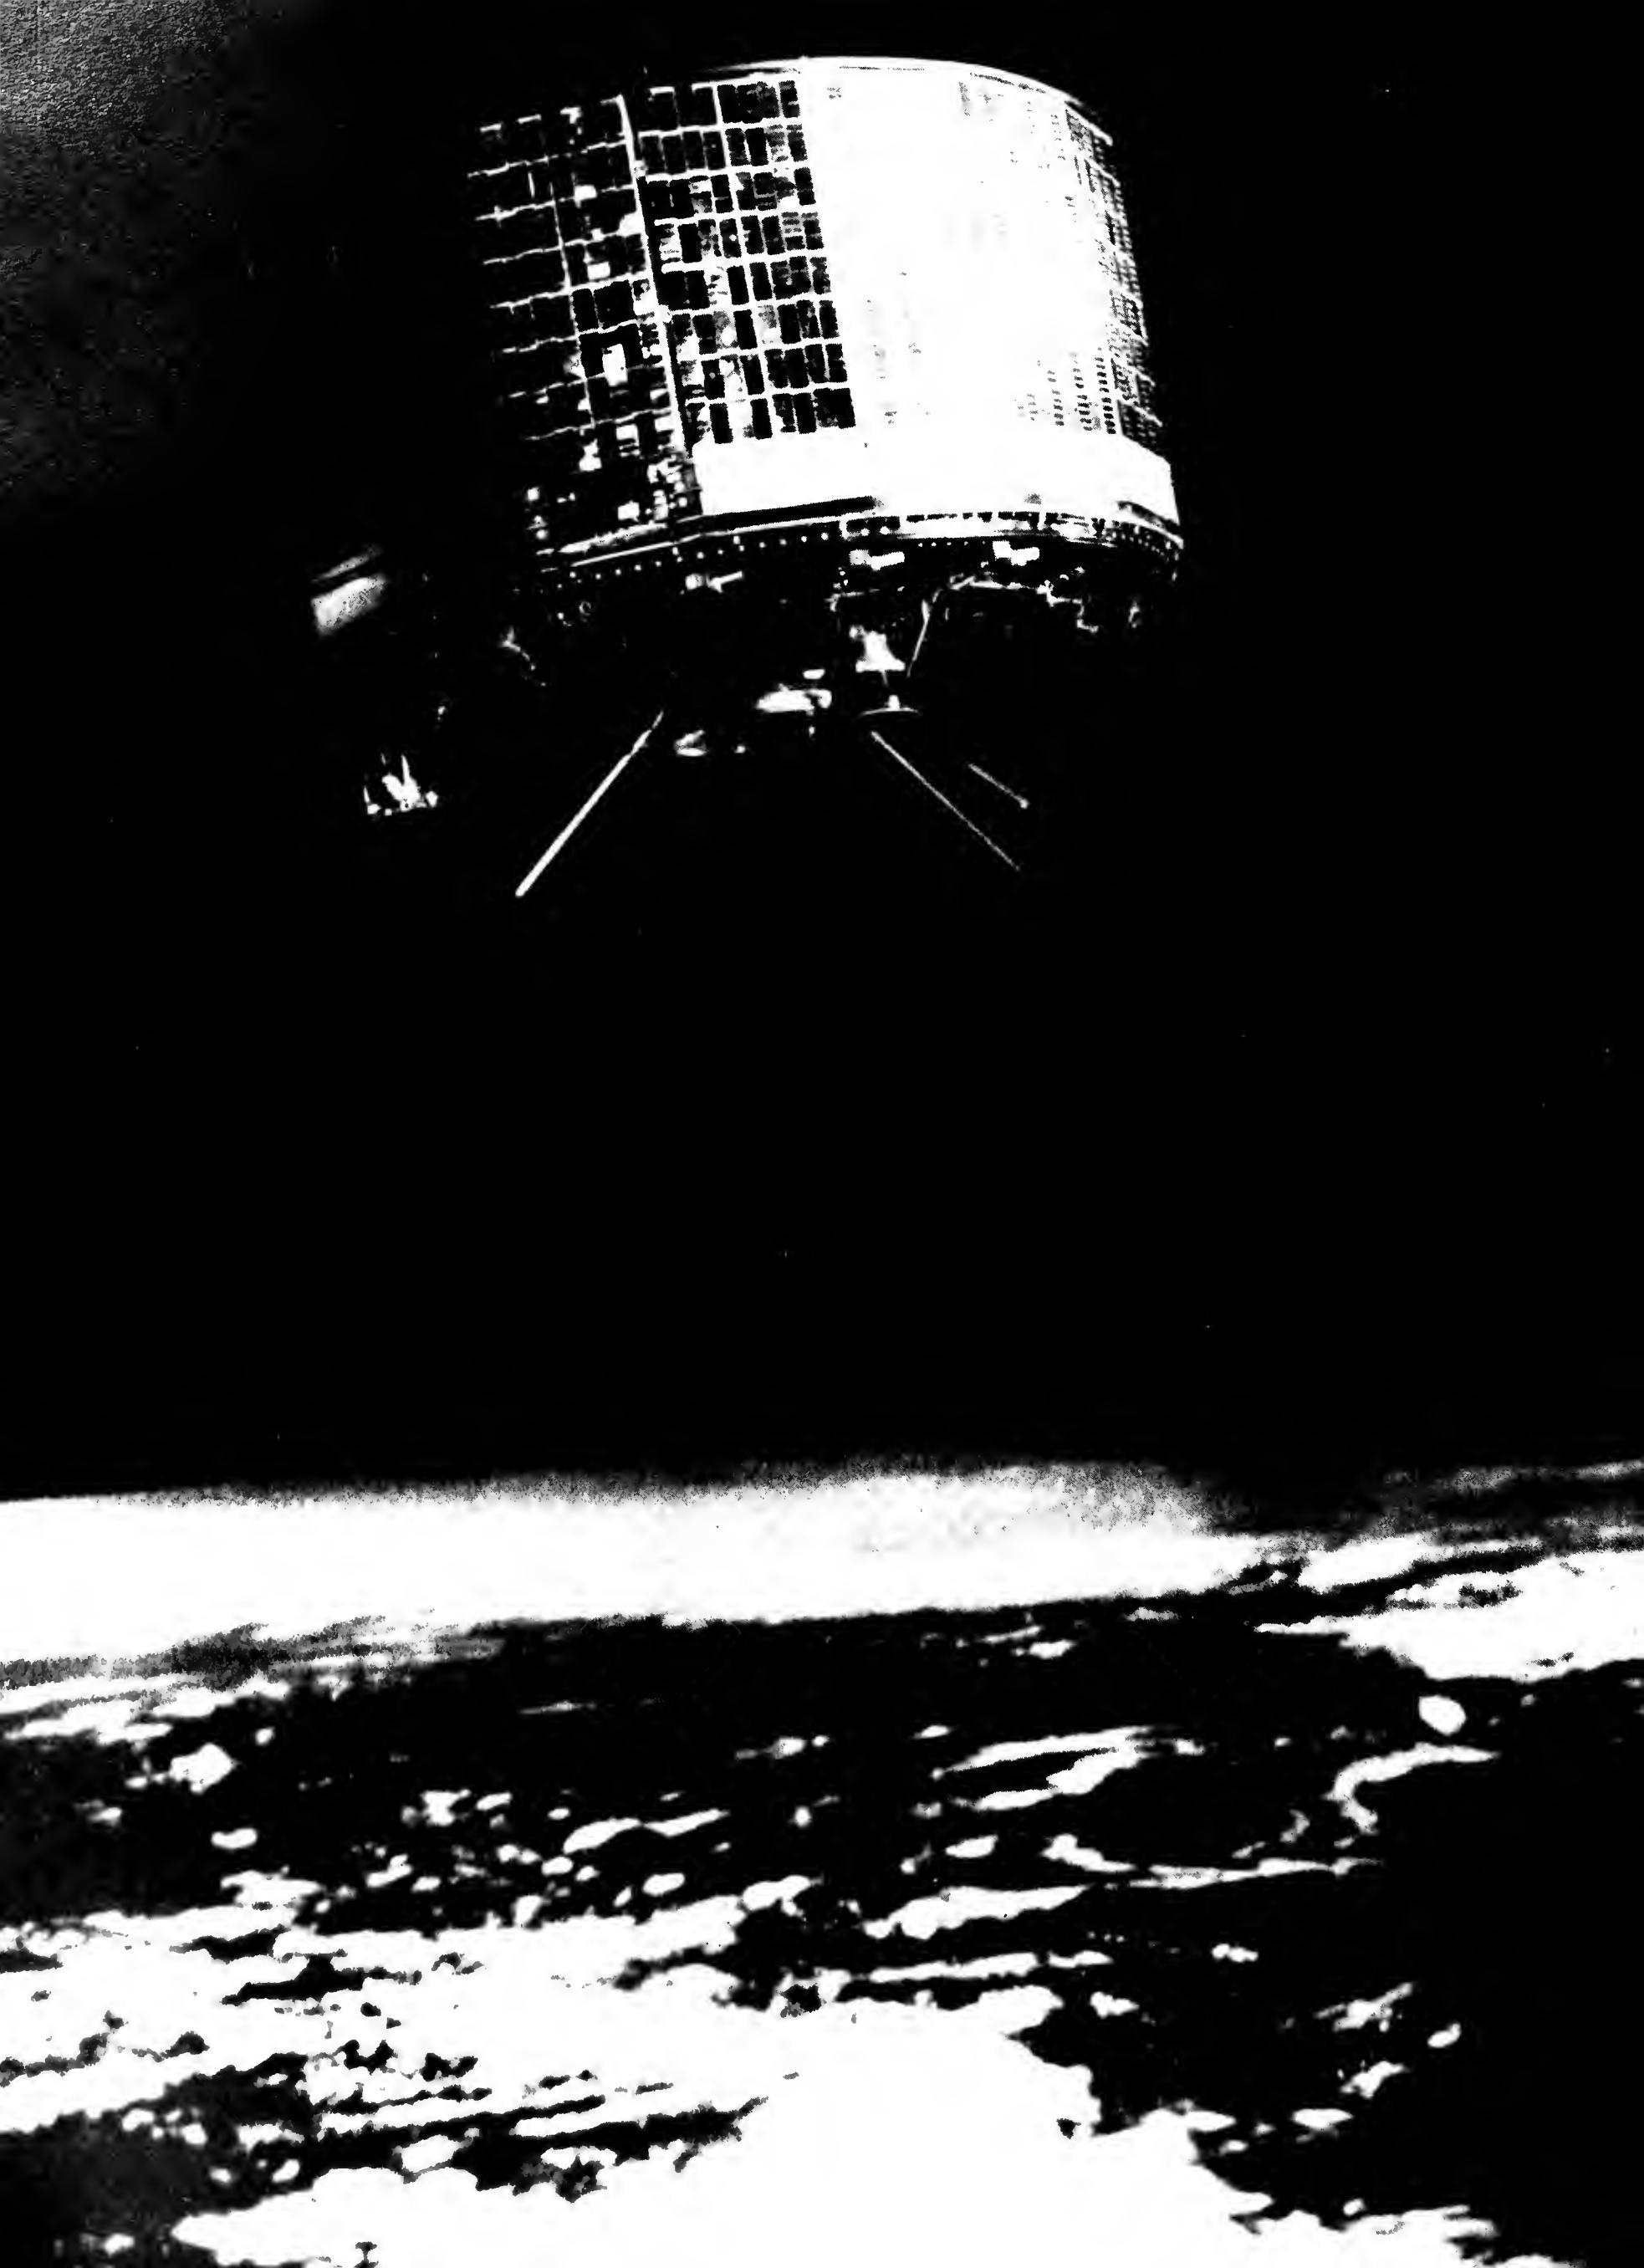

In terminating this message, I would like to thank all those students and staff who contributed their very considerable time and energy during this past year to N.A.I.T. and its various activities and, in doing so, helped make the year of benefit to everyone.

Once again, thanks and Good Luck to All.

A handwritten signature in black ink, appearing to read "J. McCUTCHEON".

# NOON HOUR IS A GOOD TIME TO VISIT TORONTO-DOMINION

We realize that everyone can't be a banking expert, and that many people seem to be uncertain when dealing with money. That's why we try to be more helpful and show more consideration. Many of our customers first started doing business with us during their student years, and these relationships have grown and strengthened.

If you have a financial problem, or would like to know more about the many ways we can serve you, plan to visit your nearest Toronto-Dominion Branch soon and discuss it with us.

There are 21 Toronto-Dominion Branches to serve you in the Edmonton Area.

**THE TORONTO-DOMINION BANK**

## **There's a good reason why more people bank at the Commerce**

They've found their local Bank of Commerce branch to be staffed with friendly, efficient people. These qualities of friendliness and efficiency add up to finer service. It's as simple as that. Isn't finer service what *you* want, too?

**CANADIAN IMPERIAL BANK OF COMMERCE**

Over 1300 branches to serve you

# Whatever became of:

Cleo Patra,  
CLASS OF '49?

Voted by her year "The Girl We'd Most Like To Barge Down The Nile With", Miss Patra majored in Herpetology and was a leading light in our Drama Group. On graduation, Cleo first did a brother-sister act with her younger brother Ptolemy. For Ptolemy the bell tolled shortly thereafter. She then played the Capitol with Julius Caesar in The Pharaoh Queen—but that production did not survive bad notices and the Ides of March. She next undertook a spectacular with Marc Antony and a cast of thousands of other fellahs, but the rigours of the big battle, scene at Actium was too much for Antony. Cleo then, turning to her first love — Herpetology — discovered the asp — and vice versa.

To pyramid your spare money into a substantial fund for future opportunities, you can't do better than make regular deposits in a B of M Savings Account.

**BANK OF MONTREAL**  
*Canada's First Bank*

There are 20 B of M BRANCHES in EDMONTON and DISTRICT to serve you

the  Bay

Since the granting of the Hudson's Bay Company's charter in 1670, traders, seamen and adventurers of the Company helped to shape the history of Canada. Since the establishment of the Bay's first department stores — Winnipeg in 1881 and Edmonton in 1890 — the Bay has progressed with the country. Now, as in the past, the Bay continues to serve Canadians with foresight and integrity. Your satisfaction is assured when you shop at the Bay.
